

Shift Maintenance Technician

Aeropak - Great Yarmouth Full Time

An exciting opportunity has arisen for a Shift Maintenance Technician to join our small, successful Pharmaceutical Manufacturing site at Great Yarmouth where a wide variety of medicines and healthcare products are manufactured and released to the market.

Diomed Developments is a continuously expanding, fully integrated company, comprising research, development, manufacture, marketing and distribution activities.

Working as part of a professional team within a clean manufacturing environment where the highest quality standards are observed, you will be responsible conducting routine maintenance on electro-mechanical filling, packing and fluid manufacturing equipment, creating maintenance intervention records, attending breakdowns and carrying out engineering projects. Additionally, you will be responsible for developing and implementing performance improvement solutions. In line with the company's continuous improvement ethos, you will also participate in training others in technical skills and in proactively finding improved ways of working.

To apply for this role, you will need to have the following:

- At least 5 years' experience in an FMCG or pharmaceutical environment working with packaging and manufacturing equipment.
- Qualified with a recognised electrical and/or mechanical qualification (preferably both).
- Knowledgeable in the use of C.I. tools to reduce equipment problems and raise performance
- Determined to provide a high degree of 'customer service' to the production teams.
- Tenacious about problem solving
- Enthusiastic in the pursuit of engineering and production quality and performance perfection
- Self-managing and self-driven, team focused and a good communicator
