

COMPUTER SYSTEM VALIDATION (CSV) SUPPORT COORDINATOR

The Diomed Group - Gosmore Full Time

The Diomed Group is a continuously expanding, fully integrated group of companies, comprising research, development, manufacture, marketing and distribution activities.

An opportunity has arisen in the validation team to provide support to CSV activities across the Diomed Group. You will be required to ensure compliance with internal and external regulatory requirements throughout the system development lifecycle. To perform the role of validation team leader as appropriate on CSV projects, assisting in the preparation, review, approval and issue of Computer System Validation Documentation. Also assisting in the maintenance of the CSV master plan and system register. In addition, maintenance of traceability / document matrices and maintaining the library of validation documents and ensure they are available for inspection whenever required.

To be successful in this role, you will need to demonstrate:

- A good understanding of CSV and the principles of GxP,
- Knowledge of software testing and installation,
- Previous experience in use and validation experience of commonly used systems in Pharmaceutical environments i.e. LIMS, Chromatography Data Systems, Laboratory Analytical Systems, Manufacturing systems, eDMS, ERP etc.,
- High level of skill in use of common office applications (Word, Excel etc),
- Good organisational skills and ability to prioritise own workload around a range of deadlines from different sources,
- Strong communication, interpersonal and 'people skills',
- High attention to detail.
